#### **Investigator Instructions**

- 1. Review ALFRIMS to assess the firm's current registration status and compliance history
- 2. Determine the appropriate type of inspection
  - a. If the facility produces or stores:
    - i. Perform an onsite inspection
    - ii. Interview the owner or operator in charge and employees
    - iii. Review records
    - iv. Enter comments for all questions
  - b. If the location is renewing a permit to only offer for sale or transfer, you may:
    - i. Perform the inspection onsite or by phone
    - ii. Interview the owner or operator in charge
    - iii. Enter comments for questions marked with an asterisk (\*)
    - iv. Enter 'N/A' for questions # 6, 14, 15
- 2. For either type of inspection, you may contact the owner or operator by phone to:
  - a. Schedule in advance
  - b. Review the purpose and requirements of the inspection
  - c. Direct management to the resources located at otscweb.tamu.edu/Risk/AmNitrate
- 3. Submit the completed AN Inspection Form and any supporting documentation or evidence of deficiencies to OTSC

#### F. National Fire Protection Association (NFPA)

Applies to AN Storage Facilities Only

Reference: National Fire Protection Association. Standard System for the Identification of the Hazards of Materials for Emergency Response. NFPA Code 704 (2012). <a href="http://www.nfpa.org">http://www.nfpa.org</a>

[	Inspect the facility. Describe the location(s) of the placard(s).
	AN is stored in a separate structure that may also contain non-combustible fertilizer material. Items that may not be stored in the AN structure include: combustible or flammable materials; equipment with an internal combustion engine; or a potential source of ignition such as heaters. A minimum of 30 feet must separate the AN storage structure from combustible or flammable materials including but not limited to structures constructed of flammable material, fuels and oils, hay bales, wood chips, other organic material, or charcoals.
	Inspect the facility. Describe storage conditions and the presence of other chemicals and equipment in the fertilizer storage area(s). Describe deficiencies and document with photos.
	5.Firm owner or operator provides name of first responder in the event of fire.
	Interview the owner or operator. List the name(s) of the first responder and local Fire Department.
